Aashman Dcosta
SOFTWARE ENGINEER

I am a dedicated Software Engineer based in Bengaluru, India, with a strong passion for the field of Machine Learning. My expertise encompasses a range of programming languages, including Python, C, Java, and SQL, along with a deep familiarity with prominent libraries such as pandas and scikit-learn. I am committed to advancing my knowledge and skills in these areas through meaningful contributions to projects and internships. Along with my practical experience, I hold certifications in Python, Machine Learning, SQL, and Database Management Systems (DBMS), further demonstrating my commitment to excellence in software development and data science. In addition to technical skills, I recognize the importance of soft skills, including effective communication and teamwork, in fostering successful collaborations and professional relationships.
